SCULPTRA® PRE/POST TREATMENT

WHAT TO EXPECT AFTER A SCULPTRA® TREATMENT:

- Massage the treated area for 5 minutes 3-4 times a day for 5 days after treatment. This will increase collagenesis and results of treatment.
 - Do not wear makeup for 24 hours after procedure
 - No straining, heavy lifting, or vigorous exercise for 24 hours after procedure
 - No excessive sun or heat exposure or exposure to extreme cold (icing) for 24 hours after procedure.
 - Treated areas may be red, swollen, and bruised for the first 2-7 days.
 - If bruising occurs, continue Arnica supplements, DO apply topical Arnica gel, drink fresh pineapple juice, and/or take Bromelain supplements to help bruising resolve faster.
 - A few days after treatment, you will look as you did before treatment. This is normal, over time, Sculptra will replace lost collagen.
 - Visible results may not be seen until 2-3 sessions have been completed.
 - Results can last more than two years.

Call your provider if you have any questions or concerns after treatment. Also, report any side effects to your provider.

If you had a positive experience, please leave us a google review :)
